### Finding What You Need

- **Find It @ MU**
  - When coming from a database (PubMed; Scopus; CAB; etc.), the Find It @ MU button will: link you to the full-text if available; search the MERLIN catalog for a print copy; provide a link to Interlibrary Loan/Request a Copy
  - Article in print in a campus library? Choose “Request a Copy” from the Find It @ MU menu, and we’ll scan and send it to you **for free**.
  - In your Google Scholar settings, choose University of Missouri as a “Library link” so that you see the Find It @ MU button on your GS results page
- **Off-campus access**
  - Start from a Libraries page. You’ll be asked to log in with your SSO (Single Sign-On) when you hit a subscribed resource.
  - Use VPN
  - Install the Google Scholar plug-in; install the unpaywall plug-in

### It’s All about Scholarly Communication...

- Looking for a place to submit a manuscript? Do a subject search in Scopus or Web of Science and check Source Title info. Or enter your title and abstract into Elsevier’s Journal Finder (<http://journalfinder.elsevier.com/>) for suggestions. Or ask me!
- Is it legit? **Think.Check.Submit** (<http://thinkchecksubmit.org>) has a great checklist on how to evaluate journals and avoid predatory publishers.
- **Journal-level metrics** (e.g., Journal Impact Factor) vs. **Article-level metrics** (e.g., altmetrics). Be a wise consumer of metrics.
- **SHERPA / RoMEO:** <http://www.sherpa.ac.uk/romeo/> lists the copyright policies / open access options for a plethora of publishers and journals
- **Open Access Journals:** <http://libraryguides.missouri.edu/openaccess>
  - **Retain Your Rights!**
- **Data Management Plans:** <http://libraryguides.missouri.edu/datamanagement>
- **ORCID:** Open Researcher and Contributor ID. <http://orcid.org> Claim your stuff!
- **iThenticate:** text recognition software (aka plagiarism detection tool) to prescreen articles and grant proposals. <http://research.missouri.edu/ospa/ithenticate>

### EndNote (Start Now!)
